Consent to Treatment

Naturopathic medicine is the treatment and prevention of diseases by natural means. Gentle techniques are used to stimulate the body's inherent healing capacity. Naturopathic Doctors assess the whole person, including physical, mental, emotional and spiritual aspects of the individual. Your visit may consist of a thorough case history and a screening physical examination.

It is important that we are informed of any diseases that you are suffering from and if you are on any medication or over-the-counter drugs. If you are pregnant, suspect that you are pregnant, become pregnant or are breast-feeding, please let us know immediately.

There are some slight health risks to treatment by naturopathic medicine. These include but are not limited to: aggravation of pre-existing symptoms; allergic reactions to supplements or herbs; pain, bruising or injury from acupuncture; fainting or puncturing of an organ with acupuncture needles. Results are not guaranteed and not all risks and complications can be anticipated and explained.
